Most states do not have the budget to add the extra \$100 so the stimulus benefit total for most claimants will be \$300. To be eligible for the extra benefits, one must receive at least \$100 as part of his or her regular UI, meaning that those who receive less than \$100 state WBA are ineligible for this stimulus. This is in contrast with the \$600 FPUC where everyone who was eligible for at least \$1 in benefits would receive the extra funds. 13. [The LWA \(Lost Wages Assistance\) Program](#), authorized by Presidential Memorandum, provides up to \$400 per week in additional benefits. \$300 is funded at the federal level while 25% (\$100) is optional and contributed by the state if it chooses to do so. Most states do not have the budget to add the extra \$100 so the stimulus benefit total for most claimants will be \$300. To be eligible for the extra benefits, one must receive at least \$100 as part of his or her regular UI, meaning that those who receive less than \$100 state WBA are ineligible for this stimulus. This is in contrast with the \$600 FPUC where everyone who was eligible for at least \$1 in benefits would receive the extra funds. The LWA is funded by the U.S. Department of Homeland Security's Federal Emergency Management Agency (FEMA). Check out the State Tracker [here](#). "NOT PAID" simply means state has not yet applied to FEMA for funds.
